## It's Charlie Sullivan All Over Mississippi

REPORTS FROM EVERY COUNTY PROVE THAT THE PEOPLE WANT CHARLIE SULLIVAN IN THE RUNOFF ON AUGUST 4

Yes, there is a great ground swell of support for Charlie Sullivan in every County of Mississippi. Everywhere you go - with everyone you talk - all over Mississippi - it's Sullivan, Sullivan, Sullivan!

Why are the people joining Charlie Sullivan in increasing thousands every day? Because the people have recognized in Charlie Sullivan the kind of sound, bold, courageous leadership they want in their Governor during the next four years.

Charlie Sullivan is a new voice in Mississippi politics. He has the courage to talk straight - to openly discuss the vital issues that really matter - this the people like!

Charlie Sullivan is a new hope for Mississippians. He represents the hope of thousands of men and women, like you, who are ready to cast off the old-time professional politicians who have hindered progress all these long years.

If every man and woman in Mississippi votes what his conscience tells him is honestly best for all the people - then Charlie Sullivan will be elected Governor on August 4th by the greatest majority ever given a candidate in Mississippi.

LET THE OLD-TIME POLITICIANS HAVE THE PAST -  
HAVE A BRIGHT NEW TOMORROW - VOTE SULLIVAN!!!  
ONLY THE PEOPLE ARE FOR SULLIVAN!

### VOTE SHOWDOWN IN CONSTRUCTING SUPER HIGHWAYS

Washington—The House Ways and Means Committee voted for a showdown on construction of the interstate highway system. This would mean sharply reduced annual allocations of federal funds to the states.

#### PROPOSAL

Rejecting administration demands for an increase in the federal gasoline tax, the committee proposed that a current financial emergency be met in this fashion:

1. Issue up to a billion dollars of highway revenue bonds.

2. Extend the government guarantee beyond the present 1972 termination date.

This plan, if approved by Congress, would slash scheduled highway building allocations to the states from 2 1/2 billion dollars to 600 million in the 1961 fiscal year starting next July 1. Allocations for ensuing years would be cut sharply below the present schedule.

The federal government supplies 90 per cent of funds for construction of the interstate system.

The committee vote was 15 to 10.

#### OPPOSED TO BONDS

The Eisenhower administration has opposed issuance of special highway bonds, contending this would create inflationary pressures and interfere with sales of other government securities.

President Eisenhower proposed that difficulties in financing the present program be met by raising the federal gasoline tax from the present 3 cents a gallon to 4 1/2 cents.

The 1956 Highway Act which provided for construction of the

### LARGEST PAID CONCERATION IN HANCOCK COUNTY

Second Grade Matter in the Penitentiary at Bay St. Louis, La. at March 3, 1951.

### GO TO THE POLLS AND VOTE TUESDAY, AUGUST 4TH

Next Tuesday, August 4th, is election day in Mississippi. The day we wait for every four years, to exercise our constitutional right to vote for the candidate of our choice. And, dear readers, do just that: go out and vote—not for the candidate who makes the prettiest speech, who shakes the most hands or who kisses the most babies—but vote for the candidate, who in your mind, is best qualified to fill the office to which he aspires.

But regardless who you vote for, just be sure to go to the polls and VOTE. It has been said, and truthfully so, that there are more officials elected—the wrong ones—by those who fail to go out and vote than there are by those who do.

If you really want to see a certain candidate elected, but FAIL TO GO TO THE POLLS AND VOTE FOR HIM, you automatically cast your vote against him, so you can really see the importance of casting your vote and also get your friends to go to the polls and vote.

If you lack transportation to get to the polls, just call any candidate and we feel sure someone will be around to pick you up and also return you to your home after you have cast your vote.

Also, if you are under sixty years of age, be sure to have your 1957 and 1958 poll tax receipts with you in order to be eligible to vote. On the other hand if you are over sixty years of age or have just turned twenty-one and have not yet paid two years poll tax, be sure to procure a certificate from the Clerk of Courts, at the courthouse before going to the polls.

By following these instructions, you will avoid any trouble or delay at the polls, and this is important in view of the fact that the largest turnout of voters in our county's history is expected.

ABOVE ALL BE SURE TO GO OUT AND VOTE.

### HONESTY IS STILL "THE BEST POLICY"

In these days and times when nations the world over are attempting to outdo each other in the development and manufacture of atomic weapons, when tales of murder, dishonesty and deceit monopolize the headlines in newspapers throughout the world, there are still some folks who believe in the old adage, "that honesty is the best policy."

This was clearly illustrated to us from the following story given to this paper by Mr. J. R. Scharff, of the Jitney-Jungle Store.

Back in 1945, when Mr. and Mrs. J. R. Scharff were operating the Quality Food Store and carried charge accounts a customer left town owing them approximately \$50.00. Thereafter, each time that former customer could spare a few dollars, she would send the money to Mr. Scharff to apply on her account. On July 4th, this year, she came into the Jitney-Jungle Store, which Mr. and Mrs. Scharff now operate, and told Mr. Scharff that she would like to pay the balance due on her account, amounting to \$8.00. This after fourteen years.

This only proves that although there are those who refuse to pay an honest debt, others who get into financial difficulties, will make every effort to pay what they owe, regardless of the time it may take.

### Weekly And Personal Returns Are Now Open

#### Inspection Says Clerk

Weekly and personal tax rolls have been open for inspection. A. C. Clark, Clerk of Courts, announced the week.

Any objections concerning same will have to be filed on or before the first Monday in August. The clerk added.

**STORM**  
 The weather bureau came in  
 today with a forecast of a  
 storm which would strike the  
 Gulf Coast late this week.  
 The forecast is a front page  
 editorial said.  
 "It is unfortunate the Weather  
 Bureau does not have as efficient  
 forecasting system as it should."  
 The editorial went on to de-  
 scribe radar systems with ex-  
 pensive equipment, elaborate com-  
 munication systems and an airplane  
 hurricane-spotting system, all of  
 which it said, the Weather Bu-  
 reau claimed would greatly deter-  
 mine hurricanes.  
 The editorial continued:  
 "So a hurricane hit the Texas  
 Gulf coast. The Weather Bureau  
 seemed almost as uninformed as  
 the ordinary citizen."  
 The newspaper said the Houston  
 Weather Bureau was not involved  
 in this fiasco last week. Hurricane  
 warnings are issued by the New  
 Orleans office.  
 In New Orleans today, Litch-  
 blau said:  
 "I don't know what they are  
 squawking about. There were  
 very few injuries. Apparently  
 people were adequately warned."  
 Litchblau added that had we  
 not had the radar equipment and  
 communications equipment they  
 are complaining about, we could  
 have put out nothing. As it was,  
 with the storm developing so sud-  
 denly, we put out information  
 just as quickly as we got it."  
 The weather forecaster said the  
 storm developed only 40 miles off  
 the coast, from 15 to 20 mile  
 winds, which are normal for the  
 Gulf. He added that a storm de-  
 veloping that close to the coast  
 is much harder to track and fol-  
 low than a storm developing at  
 sea.  
 He said that people must under-  
 stand that winds of 15 and 20  
 miles an hour just off the coast  
 can develop into storm intensity  
 quickly and without warning, but  
 storm warnings are issued with  
 all speed when they are found.  
 Litchblau said the development  
 and movement must both be  
 tracked and this is extremely dif-  
 ficult in Gulf storms. It's like a  
 basketball game," he said. "They  
 jump around and have no steady  
 pattern. There is a great move-  
 ment and it is difficult to develop  
 a pattern for them."  
 He said if people will take ap-  
 propriate action when suggested  
 by the Weather Bureau, any dis-  
 aster such as that which occurred  
 during Hurricane Audrey, may be  
 avoided.  
 Audrey struck the southwest  
 Louisiana coast June 27, 1957,  
 killing more than 500 persons.

 The University of  
 Mississippi said today the last  
 building program in its his-  
 tory is nearing completion.  
 The university said the total  
 cost of the program is estimated at  
 \$5,000,000. It includes classrooms,  
 dormitories, a law school addition  
 and housing units for married  
 students, all under construction  
 or recently completed.  
 The department of home eco-  
 nomics and the department of mu-  
 sic will move into a \$750,000  
 building next year, while a new  
 \$700,000 building for the school  
 of commerce and business admin-  
 istration has been authorized and  
 work is expected to start next  
 year.  
 Recently completed dormitories  
 include Miller Hall for men, Pow-  
 ers Hall for men and Hefley Hall  
 for women. The three cost a total  
 of more than \$1,400,000.  
 A \$391,000 law school annex was  
 finished in May, while 180 apart-  
 ment units costing about \$1,300-  
 00 are finished.  
 Two men's dormitories, 80 fam-  
 ily apartments, 16 faculty apart-  
 ments and 10 faculty residences  
 are planned.

# Attention: Residents of Hancock County

The Industrial Development Committee of  
 the Chamber of Commerce has been working  
 very diligently to bring industry into our  
 County. We have learned that, before indus-  
 try will come into a community, there are  
 certain requirements that are necessary:

- No. 1 - An Industrial Survey
- No. 2 - A Labor Survey

We have been compiling data for this Indus-  
 trial survey, and one of its most important  
 phases is the Labor Survey. We are mailing  
 out a questionnaire in connection with the  
 Labor Survey to all of the people in our  
 County who are customers of the Coast Elec-  
 tric Association and the Mississippi Power  
 Company. In this way, we feel we should  
 reach practically every resident of the Coun-  
 ty.

If we are to bring business into Hancock  
 County, it is absolutely essential that this  
 Industrial Survey be made. In nine cases out  
 of ten, manufacturing concerns which are  
 seeking a location in the State of Mississippi  
 will inquire directly to the Industrial Board  
 of the State of Mississippi. Unless and until  
 this survey is in that office, there is very  
 little possibility of industry coming into this  
 area. As it stands today, we are one of the  
 few counties which has no Industrial Survey  
 in the Office of the A. and I. Board.

You will note, in the questionnaire, that one  
 does not have to be unemployed to complete  
 the form. We are endeavoring to induce  
 people, who are employed elsewhere, to come  
 back to the community in which they were  
 reared, and work provided salaries and work-  
 ing conditions were satisfactory.

The following members of the Industrial  
 Development Committee are very anxious to  
 complete this Survey as they have been  
 working very diligently toward accomplish-  
 ing this end:

- A. G. DANTAGNAN, Chairman
- LEO SEAL, JR.
- H. C. BERCKES
- NORTON HAAS, JR.
- E. M. BRIGNAC, JR.
- JOHN J. McDONALD
- HARDIN SHATTUCK

Your cooperation will be greatly appreciated

## This Is The Truth

To the Citizens of Jackson, Harrison, and Hancock Counties, and the Southern District:  
Next Tuesday, August 4, 1959, you will go to the polls and vote for a man who will represent you for the next four years as your Highway Commissioner of the southern district. There will be millions of your tax dollars spent each year for the maintenance and construction of your highway system.

We are a growing district, and there is no room for complacency in this important office, as we must keep pace with progress.

We are burdened with two toll bridges on the Gulf Coast that could have been freed in 1956, had your present Commissioner cooperated with the Legislature in recommending Legislation to obtain necessary funds to free the toll bridges, which were his duties and obligations to the citizens of the Gulf Coast area but instead, your present Highway Commissioner's spokesman informed the Ways and Means Committee that the Highway Department was opposed to a bill then pending before such Committee, proposing to make the toll bridges against public policy in Miss. and recommended they be freed at the earliest possible date. Therefore, as a result of the Highway Department's recommendation, the bill died in the Committee.

There was very little foresight used in the construction of the toll bridge in Jackson County and in Hancock County. The toll bridge in Jackson County hinders the development of the west-bank industrial area, as it compels those industries to pay a great deal of money in toll fees in order to get their plants the raw material and to their customers with the finished product. Certainly, the location of the toll bridge in Jackson County was not a sound move; and such crossing should have been tunneled in order to eliminate the congested condition, both on the water and highway, which is in existence at this time and is very hazardous to our progress.

The toll bridge in Hancock County is definitely a hazard to the commuters and to any potential industry that would desire to locate in Hancock County.

Our tourist's dollar in Mississippi amounts to over \$300,000,000 and by building a highway system to bring the tourist into the Gulf Coast area, instead of Florida and New Orleans, and the elimination of the burden-some tolls, we can increase our tourist trade to well over a million dollars.

I would like to point out to the citizens and voters of the Gulf Coast area that the toll bridges, both in Jackson and Hancock Counties, were constructed during the incumbent's term of office through the recommendation of the Highway Department. It was never necessary to construct the toll bridges in the first place, and if the present Commissioner had used existing funds in the Department, the federal government would have matched it; and day, the citizens and industries would not have been burdened with the tolls, which is definitely a hazard to our industrial growth and the tourist trade.

The only people that have benefited by the construction of the toll bridges are the few that have reaped untold thousands of dollars from the pockets of the citizens, the working man, and the industries of the Gulf Coast area, having no consideration for the welfare or the progress of our people and the continued growth of the Gulf Coast area. VOTE FOR WILLARD L. RICHARDSON, A YOUNG, ENERGETIC MAN WHO LIVES ON THE COAST AND UNDERSTANDS ITS PROBLEMS. LET'S BAND TOGETHER AND ELIMINATE THE SELFISH INTEREST AND GIVE THE HIGHWAY DEPARTMENT BACK TO THE PEOPLE, WHERE IT RIGHTFULLY BELONGS.

Respectfully submitted,

### SAFETY MAKES SENSE

Yes, safety does make sense, doesn't it? These three words are the theme of this year's National Farm Safety Week.

Let it be your theme all during the year. This one week points the finger at the hazards all around us to our safety and that of our families. But one week won't do the job. Resolve to remove hazards around your home and grounds whenever you see them. Resolve to teach your children the safety precautions around farm animals, farm machinery, in cars and on the highway, when swimming, hunting or fishing.

### LAUNDERING RULES

Some rules for good results on wash day are:

Don't overload your washing machine. It is wise to weigh the loads. A small load will be cleaner than a "too full" load.

Measure the detergent. The old rule that if a little does a little good, a lot does a lot of good does not work here. You waste detergent and money.

Rinse well. It is necessary to rinse when you use detergents.

Take care when you bleach. Some of the advertising on bleaching cannot be depended on. Bleach to remove stain that is left in af-

## DOES SPEED KILL?

Maybe not, admits the Highway Patrol, but a sudden stop can. According to Public Safety Commissioner Tom Scarbrough, speeding, coupled with carelessness, is the initial factor causing Mississippi's severest traffic accidents. He explained that other driver errors contribute to accidents, but the preponderance of blame in fatal accidents can be laid at the door of speed and carelessness.

The braking distance for a vehicle traveling 40 MPH on average hard surface roadway is approximately 114 feet, including reaction distance. It takes a driver traveling 70 MPH an estimated 297 feet to halt his vehicle, far more than double the braking distance at 40 MPH. Under wet road surface conditions, this reaction and braking distance increases alarmingly at any speed.

The Patrol head further pointed out that although strict traffic law enforcement deters speed, the latter motorist ill, driver carelessness, is harder to cope with.

"Only alertness and safety awareness—possibly accident warnings—better fits—prevents carelessness mistakes behind the wheel. Motorists must recognize that their safety depends on that degree of safety consciousness displayed by each individual driver," said Commissioner Scarbrough.

"We must all drive as if our very lives depend on it." To speed enthusiasts wishing to get technical and who maintain that speed itself isn't dangerous, the patrol can only point out that excessive speed has no place on a public highway. Whether or not speed itself kills irrelevant for the end result of speeding, a sudden crashing stop, does kill.

ter soil is out, such as on collars and bottom of socks. Bleach to remove oils, mud stains and food stains.

Do not bleach every washer load! It weakens the material and clothes wear out faster.

Do not overdry, if you are the proud owner of a dryer.

### LIME CHIFFON PIE

1 Envelope of plain gelatin  
1/4 Cup cold water  
4 eggs, separated  
1/2 cup lime juice  
1 cup sugar  
1/4 teaspoon salt  
1 teaspoon grated lime rind  
1/2 cup heavy cream, whipped  
Soften gelatin in cold water. Beat egg yolks in top of double boiler. Mix in lime juice, 1/2 cup sugar and salt. Cook over hot water until mixture thickens slightly, stirring constantly. Remove from heat. Add gelatin and stir until dissolved. Add lime rind. Beat egg whites until stiff peaks form. Gradually beat in remaining sugar. Fold gelatin mixture into egg whites. Then fold in whipped cream. Turn into 9 inch baked pie shell.

Tomatoes with a greenish cast will ripen better when held at room temperature than when placed in direct sunlight; unripe tomatoes that are refrigerated will not ripen properly, and will become watery.

## SHOWS VALUE OF DEFOOLIATING COTTON

State College, Miss.—A recent study of humidity in cotton fields has shown the importance of defoliation.

J. A. Riley, weather bureau meteorologist, and E. B. Williamson, USDA agricultural engineer, working cooperatively with the Delta Branch Experiment Station at State College and the Delta Branch Experiment Station at Stoneville.

Relative humidity measurements in defoliated and undefoliated cotton at Stoneville, Mississippi, in 1955 indicate that leaf cover is one of the major factors influencing humidity in cotton fields. For instance, during an 18-day period from October 20 to November 7, relative humidities averaged 8.5 percent lower in defoliated than in undefoliated fields.

"Previous investigations have shown that excess moisture creates problems in handling, cleaning, and ginning seed cotton. Other tests have revealed that atmospheric moisture greatly influences the moisture content of machine-picked seed cotton."

"Therefore, the reduction of leaf cover can play an important part in reducing seed cotton moisture and preserving the quality of fiber in humid areas. From this study it is indicated that defoliation can increase the number of hours of safe picking in addition to its other beneficial effects."

Relative humidity, through its effect on moisture content of seed

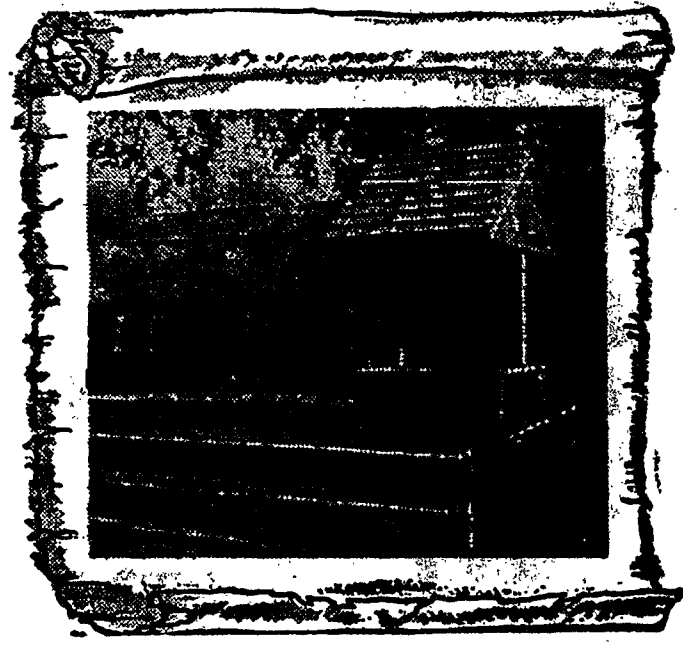

also influences the rate of seedling growth in cotton. Defoliation is little or no delay in cotton picking, cotton levels of humidity are frequently reported in value because of instantaneous regulation of dryness.

The complete report is published in the July issue of Mississippi Farm Research available at request from the Experiment Station at State College and the Delta Branch Experiment Station at Stoneville.

Approximately one-third of the time a dairy plant is in operation each day is devoted to cleaning activities. Not only must the milk itself be clean, but every piece of equipment used also be scrupulously sanitary.

#### SHEEP NOTES

Has this question been worry-  
ing you: What should I do with  
lambs that were too small to sell  
during the regular lamb market-  
ing season?

Take the lambs off ewes imme-  
diately if they are not already  
off. Greater sale of lambs are  
large enough, June 1st is a good  
time to do this.

If you have enough grass to  
carry them over, shear the lambs,  
drench them and put them in an  
area where there is shade, ten-  
der grazing and water.

Giving the lambs a pound of  
grain a day for three weeks to a  
month will help them get over the  
shock of weaning.

Either sell them this fall in  
organized sales or carry them  
through the winter and sell in  
the early spring as fat old-crop  
lambs off winter grazing.

Another question being asked  
by sheepmen is: "How should the  
ewe flock be handled at this sea-  
son?"

They should be treated for in-  
ternal parasites, put on good  
grazing and if not already done,

Clip the ewes in dry lot. Make  
combs. If the ewes are in  
poor condition, proceed on an  
early basis. A dry ewe will get  
in good physical shape.

When ewes appear overly fat,  
some producers like to dry lot  
them for three weeks or so. Then  
put them on lush grazing and  
turn rams in with them.

When ewes are in dry lot they  
should have shade, water and a  
very small amount of grass hay  
or oat straw.

## LOOK WHAT <sup>United</sup> GAS IS DOING NOW

## MOVING GAS BY automation

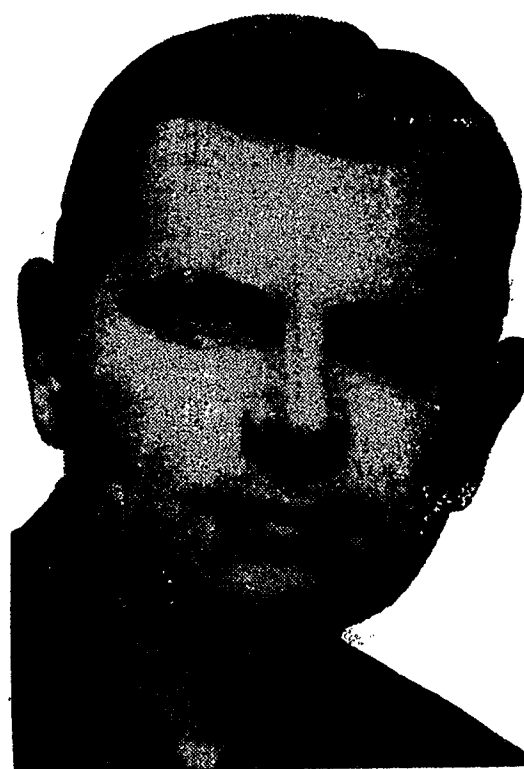

United Gas is using automation and remote control in  
many phases of natural gas production, transmission  
and distribution.

The simple switch shown above, for example, uses  
microwave radio to open and close a regulator valve 70  
miles away. Through the use of this type of automatic  
equipment natural gas is transferred from one large-  
diameter pipe line into another at the pressures and  
in the volumes required—entirely by remote control.  
Automation makes daily operations more effective...  
helps to hold down the rising cost of delivering gas to

terment was in Greenwood cemetery.

Mississippi bank debts in June  
registered a new all-time high.  
June debts of \$778,336,000 were  
not only the highest total re-  
corded for June, but also a new  
all-time high on the bank debt  
index, and ten points above the  
previous high registered in April  
of this year. The June total  
21 per cent above the June total  
total. Economists regard the

Make your promise today to DO A GOOD DEED FOR GOOD DEEDERS.

Mail your contributions to Mrs. James A. Lewis, 403 N. Beach, St. Louis, Mo. We thank you very much.

Mrs. Winona Probus, the adviser of the Girl Scout Staff of the Memphis Office, will spend the week of August 3rd to 7th on the Coast. She will be conferring with the Finance Committee of the Gulf Pine Council and Community Chest Officers and Fund Drive Chairman.

Junior Girl Scout Counselors for Camp Tiak have started their training this week. They will meet in Gulfport and be trained for their work as volunteer counselors there.

Troop No. 1 and their Leader Mrs. Warren Traub met Monday July 27 in Mrs. Traub's home. They discussed preparations for the requirements of the 5 point program of Senior Scouting. This program consists of 1. Increase Camp Skills. Camping must first be studied thoroughly before embarking on this program. 2. Emergency preparations. Consisting of out-of-doors skills such as setting up an out of doors kitchen in times of disaster. Also, consisting of first aid program and their knowledge there-a-bouts. 3. Service. This program deals with helping persons to shelters, knowing how and where to locate and shut off gas and water, etc., and call service, and if wires are down, to contact persons on bikes, etc. 4. Hobbies and Interests. Such as sewing, cooking, drawing, etc. 5. Your Troop Council Committee. How to help their Council.

Each of these 5 parts of the program have many other requirements and values. The girls will be working on this program all summer and into the fall. Troop No. 1 is sponsored by Bay-Waveland Yacht Club.

Make your promise today to DO A GOOD DEED FOR GOOD DEEDERS.

Mail your contributions to Mrs. James A. Lewis, 403 N. Beach, St. Louis, Mo. We thank you very much.

Mrs. Winona Probus, the adviser of the Girl Scout Staff of the Memphis Office, will spend the week of August 3rd to 7th on the Coast. She will be conferring with the Finance Committee of the Gulf Pine Council and Community Chest Officers and Fund Drive Chairman.

Junior Girl Scout Counselors for Camp Tiak have started their training this week. They will meet in Gulfport and be trained for their work as volunteer counselors there.

Troop No. 1 and their Leader Mrs. Warren Traub met Monday July 27 in Mrs. Traub's home. They discussed preparations for the requirements of the 5 point program of Senior Scouting. This program consists of 1. Increase Camp Skills. Camping must first be studied thoroughly before embarking on this program. 2. Emergency preparations. Consisting of out-of-doors skills such as setting up an out of doors kitchen in times of disaster. Also, consisting of first aid program and their knowledge there-a-bouts. 3. Service. This program deals with helping persons to shelters, knowing how and where to locate and shut off gas and water, etc., and call service, and if wires are down, to contact persons on bikes, etc. 4. Hobbies and Interests. Such as sewing, cooking, drawing, etc. 5. Your Troop Council Committee. How to help their Council.

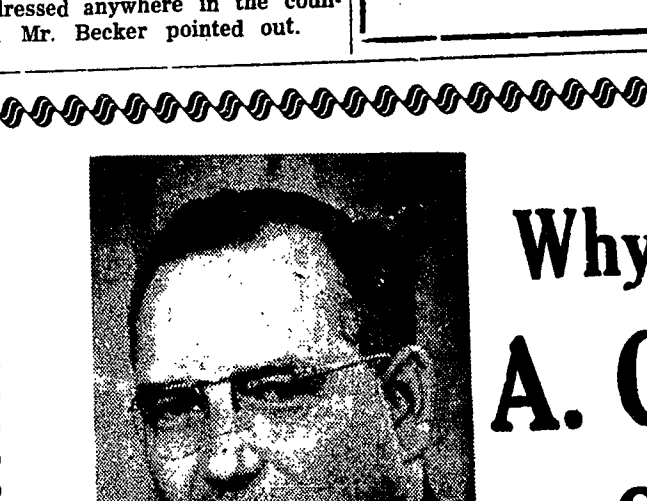

Each of these 5 parts of the program have many other requirements and values. The girls will be working on this program all summer and into the fall. Troop No. 1 is sponsored by Bay-Waveland Yacht Club.

When reducing weight is the goal, milk pays its way by contributing generous amounts of protein, calcium and other needed nutrients, along with a very moderate number of calories.

## For The Mississippi Gulf Coast

The Mississippi Gulf Coast is On the Move! As a Tourist and Resort Area it is becoming one of America's busiest. New industries are locating here where Climate, Natural Resources and Skilled Workmen Abound. Steps are now being taken which will make the Gulf Coast a Major Seaport Area.

**GOOD HIGHWAYS WILL CONTRIBUTE**

Continued development of Good Highways, based upon Sound Planning, will help South Mississippians to Realize this Gulf Coast Dream!

**JOHN SMITH'S PROGRAM IS SOUND**

Three Main Objectives must be Achieved in the Future Planning of Gulf Coast Highway System:

1. The Highway-Developed Resort Area on Present U. S. 90 Must Be Preserved after the New Interstate Highway is built.
2. The Network of Highways leading to the Coast must be Improved Systematically.
3. The final location of Interstate Highway No. 10 must be made so that it will not interfere with the Port, Industrial and Canal Development that is being planned for the benefit of this Area.

In Hancock County present U. S. No. 90 will be four-laned to the Highway No. 43 intersection. Then, Highway No. 43 will be four-laned into the interchange on Interstate Highway No. 10. This route will be designated as the Scenic Coastal Route of the Mississippi Gulf Coast through Hancock, Harrison and Jackson Counties.

Should future traffic needs require the four-laning of U. S. No. 90 from the Highway No. 43 Intersection on to Pearllington, that will receive the immediate attention of the State Highway Department.

**A VOTE FOR JOHN D. SMITH IS A VOTE FOR CONTINUED HIGHWAY PROGRESS**

**RE-ELECT JOHN D. SMITH HIGHWAY COMMISSIONER, SOUTHERN DISTRICT**

**"A PROVEN FRIEND OF THE COAST"**

Paid for by Hancock County Friends of John D. Smith.

Read and Approved by John D. Smith.

# Why We Vote To Reelect A. C. (Mitch) Mitchell Our Chancery Clerk Because:

1. The confidence placed by the people of Hancock County in A. C. Mitchell has paid off during his tenure of office.
2. He has been completely tried, tested and approved.
3. He is qualified in every respect to administer the affairs of the office.
4. He is not aligned with any political group or clique, but relies strictly on his own merits and past record.
5. He was instrumental in putting your County on a cash basis.
6. He has worked untiringly for the growth and development of Hancock County. (Your County has grown approximately three fold during his tenure of office.)
7. He has administered an honest, capable and efficient service to the people of Hancock County, and always upholds the dignity of the office in which he serves.
8. The records of Hancock County today represent an open avenue to the advanced growth and development of your County.
9. A. C. Mitchell has established himself as part of an administration that has brought Hancock County from a small bankrupt subdivision of the State of Mississippi into one of the top counties of the 82.
10. He has been instrumental in bringing about a closer weave of friendship between your municipalities, communities and counties.
11. During his tenure of office he has been content to continually seek to the office to which you so graciously elected him.
12. He has proven by his record accomplishments, during his tenure of office, that there is absolutely no substitute for experience.

**SUBMITTED TO AND APPROVED BY A. C. MITCHELL**

**TO THE PEOPLE OF MISSISSIPPI**

Greetings:

We the undersigned are all candidates for the office of District Attorney for the 11th Judicial District of Mississippi the position now held by our friend, CHARLES L. SULLIVAN, who is a candidate for the Governorship of Mississippi and is therefore not standing for re-election to his present post.

In spite of the competition for this post as District Attorney, that exists between us, there is one very important thing on which we all three agree:

If CHARLIE SULLIVAN had desired to continue as District Attorney in the 11th Judicial District he could have been re-elected. In fact, not any one of the three of us would have entered the race if CHARLIE SULLIVAN had announced for re-election.

Respectfully—

A. B. SMITH, JR., Cleveland, Mississippi

ELLIS GRIFFITH, Cleveland, Mississippi

HOKE STONE, Lambert, Mississippi

**CHINCH BUGS CAN EAT UP ST. AUGUSTINE QUICKLY**

Some lawn pests are easily detected before they cause any damage, but chinch bugs are so small they can work away undetected until sufficient brown spots appear in the lawn to make their presence suspected. These lawn pests are no strangers to St. Augustine grass growers along the Gulf Coast, but to other lawn fanciers, it is quite new. Chinch bugs are especially fond of this variety of grass. Since they are so small and so adept at hiding under the thick turf grass plants they are very hard to locate, and will kill out stands of St. Augustine Grass. There are several chemicals which are effective in controlling these pests; chlorodane, dieldrin, DDT, sabadilla dust, and diazinon.

**WANT DEMOCRATS ONLY TO VOTE IN AUG. PRIMARIES**

Bidwell Adam of Gulfport, state chairman of the Democratic executive committee, today said he preferred to let county committees determine and decide on a local basis who are Democrats and Republicans and instruct precinct managers accordingly.

In a telegram to Adam, Paul Pittman of Tylertown, president of the Young Democrats of Mississippi, urged the state committee to prevent Republican participation in the August Democratic Primaries. He urged Adam to issue instructions to election officials to challenge known Republicans who offer to vote in the Democratic primaries.

primary election.

"I would prefer that the Democratic executive committee of each county determine and decide locally who are Democrats and who are Republicans and instruct the managers accordingly."

CANDIDATE FOR SHERIFF AND TAX COLLECTOR  
 HANCOCK COUNTY

As we approach the eve of our all important coming County election, it would do well for each and every one of us to review the qualifications of all the candidates concerned. Let me take this opportunity to go over my past accomplishments as your former Constable of Beat 5. I have had the privilege of attending the Federal Bureau of Investigation School on several occasions which has benefited me in laying a solid foundation to qualify me more fully for the position which I now seek with your help. I have worked constantly with the Police and Detective departments of the surrounding cities and with their assistance have been able to bring successfully to a close many of the cases which have arisen in our area during my tenure as a police officer which was for a duration of 18 years. Previously I have mentioned my sincere intention for a Youth Program and up to this date plans have not been completed but the outline of same will be the formation of a Junior Deputy Sheriff organization, and a Junior and Senior Sheriff's Posse which will comprise of both men and women, boys and girls. These organizations have been very successful in other communities and with the assistance promised me by both business men and women in our community can meet with the same success.

New back to the position of Sheriff. What do you expect and need in this position? A man who has proven himself a real officer for 18 years, a man to whom you can call upon night or day for the protection which you deserve for your family, yourself and your property. It is a known and admitted fact, by the people of our community, that Gerald Price came when he was called. If you will give me the privilege of serving you as your Sheriff and Tax Collector as you did as your Constable, I will dedicate the next four years as a true servant and protector of the people maintaining at all times my acknowledged reputation as a true Law Officer.

As an independent candidate and working 8 hours a day it is impossible for me to contact each and everyone but should I fail to call upon you it is only due to the fact that time is running out. I will appreciate your vote on August 4th for a True Law Officer that is Gerald PRICE.
